25/12/2024,

To  
whomever it may concern,

We have a pt.  
named, 'b/o Alisha' is a 10 extremely premature  
baby with extremely low birthweight (750gm at birth).  
He had respiratory distress on admission. currently,  
child is intubated; his sepsis screen is positive &  
is on antibiotics. child will require mechanical  
ventilation for few more days & NICU care untill  
appropriate weight gain. Patient's relatives are  
financially backward and are in need of support.  
kindly grant / provide some economical support  
for the same.

Thanking you.

~~At~~ DIAGNOSIS → extremely prem, extremely  
low birth weight &  
sepsis.

STAY → 1½ months.

approximate amount = Rs 8-10 lakh.
