

18/2/25

To WHOMSOEVER IT MAY CONCERN

Abdul Atad is diagnosed as a case of Burkitt's lymphoma and is under my treatment since 25/11/24.

He has undergone 4 chemo therapy cycles. Currently he is admitted for severe gram negative sepsis. He has another 3 chemotherapy cycles which are very intensive. He may require another 3 admissions for supportive care for infection. So totally he may require another 5-6 admissions over a span of 5 months. The cost of these admissions of chemo therapy & supportive care would be around Rs 6-7 lakhs.
